

Can You Just

Can you just play some Funk and let me be,
can you just play Funk?
Can you just play some Funk and set me free?
Can you just play Funk?
Can you just play some Funk now? For I need to testify.
Can you just play some funk?

I've been looking out for the one in all directions,
north, south, east and west at every intersection.

Lord knows, I was lost with no Funk around.
I spun, I tumbled and tossed; now I need to get down. Bear witness!
I felt so undefined without my Funk
I felt so out of line without my Funk.

Can you just ...

Cause I been living deep in the dark looking for ignition.
Said it's hard without a ship to fulfill your mission.
